

Rajiv Gandhi University of Health Sciences, Karnataka

Third Semester B. Pharm Degree Examination – 21-Nov-2022

Time: Three Hours

Max. Marks: 75 Marks

Pharmaceutical Microbiology

Q.P. CODE: 5011

Your answers should be specific to the questions asked

Draw neat labeled diagrams wherever necessary

All the questions are compulsory

LONG ESSAYS

2 x 10 = 20 Marks

1. Draw an ultra structure of typical bacteria. Write composition and functions of its organelles.

OR

Explain the principle, procedure, applications and demerits of sterilization using hot air oven.

2. Explain different factors affecting disinfectant action.

SHORT ESSAYS

7 x 5 = 35 Marks

3. Write the principle and special feature of phase contrast microscopy.

OR

Write a note on cultivation of anaerobic bacteria.

4. Write the procedure, merits and demerits of sterilization by ethylene oxide sterilization.

OR

Explain IMViC tests used for identification of bacteria.

5. Write a note on method used for cultivation of virus.
6. What are the main sources of contamination of an aseptic room? How will you prevent it?
7. Explain principles involved in microbiological assay of Vitamin B₁₂.
8. Explain the preservation of pharmaceutical products using antimicrobial agents.
9. Write briefly on general requirements of animal cell culture laboratory.

SHORT ANSWERS

10 x 2 = 20 Marks

10. Write contributions of Louis Pasteur.
11. Mention arrangement-based classification of cocci.
12. Electron microscopy
13. Write structure of typical virion.
14. Write the ideal properties of disinfectant.
15. What is direct inoculation method of sterility testing?
16. Classify clean area.
17. Describe Bacterial growth curve.
18. What are the visible changes of microbial contaminations in pharmaceuticals?
19. What is primary cell culture?
